## MITUTOYO SURFTEST SJ-210 PROMOTION

Effective through December 20, 2024

SJ-210 PROMOTION

# UP TO 25% OFF PROMO PACKAGES WITH THE SURFTEST SJ-210

## SAVE UP TO 25% ON THE SJ-210, our #1 Selling Surface Roughness Tester

For a limited time, Mitutoyo America Corporation is offering the SJ-210 portable surface roughness tester in four different packages with up to 25% off through December 20, 2024. The SJ-210 SurfTest has evolved over 20 years of trusted service and is the best-selling Mitutoyo roughness tester, providing accurate measurements anywhere at any time and in any orientation. Its compact design and portability, along with a 2.4-inch back-lit color LCD, makes the SJ-210 one of the most versatile, easy-to-use surface roughness testers on the market.

## SurfTest SJ-210

### SERIES 178 — Portable Surface Roughness Tester

- > 2.4-inch color LCD display with backlighting is switchable to vertical or horizontal left / right-hand views
- > The built-in battery allows approximately 1,000 measurements on a full charge (4 hours charging time)
- > Performs roughness analysis conforming to international standards JIS '82 / JIS '94 / JIS '01 / ISO '97 / ANSI / VDA
- > Optional MicroSD card can store up to 500 measurement conditions, 10000 measurement results and 500 image data
- > Function restriction feature locks conditions to prevent erroneous measurements if settings are accidentally changed.
